

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 906

[Doc. No. AMS-SC-16-0059; SC16-906-2 FR]

Oranges and Grapefruit Grown in Lower Rio Grande Valley in Texas; Increased Assessment Rate

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This rule implements a recommendation from the Texas Valley Citrus Committee (Committee) for an increase of the assessment rate established for the 2016-17 and subsequent fiscal periods from \$0.08 to \$0.09 per 7/10-bushel carton or equivalent of oranges and grapefruit handled under the marketing order (order). The Committee locally administers the order, and is comprised of producers and handlers of oranges and grapefruit operating within the area of production. Assessments upon orange and grapefruit handlers are used by the Committee to fund reasonable and necessary expenses of the program. The fiscal period begins August 1 and ends July 31. The assessment rate will remain in effect indefinitely unless modified, suspended, or terminated.

DATES: Effective [INSERT DATE 1 DAY AFTER THE DATE OF PUBLICATION IN THE FEDERAL REGISTER].

FOR FURTHER INFORMATION CONTACT: Doris Jamieson, Marketing Specialist, or Christian D. Nissen, Regional Director, Southeast Marketing Field Office, Marketing Order and Agreement Division, Specialty Crops Program, AMS, USDA; Telephone: (863) 324-3375, Fax: (863) 291-8614, or E-mail: Doris.Jamieson@ams.usda.gov or Christian.Nissen@ams.usda.gov.

Small businesses may request information on complying with this regulation by contacting Richard Lower, Marketing Order and Agreement Division, Specialty Crops Program, AMS, USDA, 1400 Independence Avenue SW, STOP 0237, Washington, DC 20250-0237; Telephone: (202) 720-2491, Fax: (202) 720-8938, or E-mail: Richard.Lower@ams.usda.gov.

SUPPLEMENTARY INFORMATION: This rule is issued under Marketing Agreement and Order No. 906, as amended (7 CFR part 906), regulating the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas, hereinafter referred to as the "order." The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the "Act."

The Department of Agriculture (USDA) is issuing this rule in conformance with Executive Orders 12866, 13563, and 13175.

This rule has been reviewed under Executive Order 12988, Civil Justice Reform. Under the marketing order now in effect, Texas orange and grapefruit handlers are subject to assessments. Funds to administer the order are derived from such assessments. It is intended that the assessment rate as issued herein will be applicable to all assessable oranges and grapefruit beginning on August 1, 2016, and continue until amended, suspended, or terminated.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may file with USDA a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and request a modification of the order or to be exempted therefrom. Such handler is afforded the opportunity for a hearing on the petition. After the hearing, USDA would rule on the petition. The Act provides that the district court of the United States in any district in which the

handler is an inhabitant, or has his or her principal place of business, has jurisdiction to review USDA's ruling on the petition, provided an action is filed not later than 20 days after the date of the entry of the ruling.

This rule increases the assessment rate established for the Committee for the 2016-17 and subsequent fiscal periods from \$0.08 to \$0.09 per 7/10-bushel carton or equivalent of oranges and grapefruit handled.

The Texas orange and grapefruit marketing order provides authority for the Committee, with the approval of USDA, to formulate an annual budget of expenses and collect assessments from handlers to administer the program. The members of the Committee are producers and handlers of Texas oranges and grapefruit. They are familiar with the Committee's needs and with the costs for goods and services in their local area and are thus in a position to formulate an appropriate budget and assessment rate. The assessment rate is formulated and discussed in a public meeting. Thus, all directly affected persons have an opportunity to participate and provide input.

For the 2015-16 and subsequent fiscal periods, the Committee recommended, and USDA approved, an assessment

rate that would continue in effect from fiscal period to fiscal period unless modified, suspended, or terminated by USDA upon recommendation and information submitted by the Committee or other information available to USDA.

The Committee met on June 2, 2016, and unanimously recommended 2016-17 expenditures of \$751,148 and an assessment rate of \$0.09 per 7/10-bushel carton or equivalent of oranges and grapefruit. In comparison, last year's budgeted expenditures were \$701,148. The assessment rate of \$0.09 is \$0.01 higher than the rate currently in effect. At the current assessment rate, assessment income would equal around \$640,000, an amount insufficient to cover the Committee's anticipated expenditures, which includes a \$50,000 increase in funding for compliance. The Committee considered the estimated expenses and recommended increasing the assessment rate.

The major expenditures recommended by the Committee for the 2016-17 year include \$600,248 for the Mexican fruit fly control program, \$77,200 for management, and \$50,000 for compliance. Budgeted expenses for these items in 2015-16 were \$600,248, \$77,200, and \$0, respectively.

The assessment rate recommended by the Committee was derived by dividing anticipated expenses by expected shipments of Texas oranges and grapefruit. Orange and grapefruit shipments for the 2016-17 year are estimated at 8 million 7/10-bushel cartons or equivalent, which should provide \$720,000 in assessment income. Income derived from handler assessments, along with interest income and funds from the Committee's authorized reserve, should be adequate to cover budgeted expenses. Funds in the reserve (currently around \$367,000) will be kept within the maximum permitted by the order (approximately one fiscal period's expenses as stated in § 906.35).

The assessment rate established in this rule will continue in effect indefinitely unless modified, suspended, or terminated by USDA upon recommendation and information submitted by the Committee or other available information.

Although this assessment rate will be in effect for an indefinite period, the Committee will continue to meet prior to or during each fiscal period to recommend a budget of expenses and consider recommendations for modification of the assessment rate. The dates and times of Committee meetings are available from the Committee or USDA.

Committee meetings are open to the public and interested persons may express their views at these meetings. USDA will evaluate Committee recommendations and other available information to determine whether modification of the assessment rate is needed. Further rulemaking will be undertaken as necessary. The Committee's 2016-17 budget and those for subsequent fiscal periods would be reviewed and, as appropriate, approved by USDA.

Final Regulatory Flexibility Analysis

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA) (5 U.S.C. 601-612), the Agricultural Marketing Service (AMS) has considered the economic impact of this rule on small entities. Accordingly, AMS has prepared this final regulatory flexibility analysis.

The purpose of the RFA is to fit regulatory actions to the scale of businesses subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and the rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf.

There are approximately 170 producers of oranges and grapefruit in the production area and 13 handlers subject to regulation under the marketing order. Small agricultural producers are defined by the Small Business Administration (SBA) as those having annual receipts less than \$750,000, and small agricultural service firms are defined as those whose annual receipts are less than \$7,500,000 (13 CFR 121.201).

According to Committee data, the average price for Texas citrus during the 2014-15 season was around \$16.50 per box and total shipments were near 4.1 million boxes. Using the average price and shipment information, the number of handlers, and assuming a normal distribution, the majority of handlers have average annual receipts of less than \$7,500,000. In addition, based on information from the National Agricultural Statistics Service, the weighted grower price for Texas citrus during the 2014-15 season was around \$9.55 per box. Using the weighted average price and shipment information, and assuming a normal distribution, the majority of producers would have annual receipts of less than \$750,000. Thus, the majority of Texas citrus handlers and producers may be classified as small entities.

This rule increases the assessment rate established for the Committee and collected from handlers for the 2016-17 and subsequent fiscal periods from \$0.08 to \$0.09 per 7/10-bushel carton or equivalent of Texas oranges and grapefruit. The Committee unanimously recommended 2016-17 expenditures of \$751,148 and an assessment rate of \$0.09 per 7/10-bushel carton or equivalent. The assessment rate of \$0.09 is \$0.01 higher than the 2015-16 rate. The quantity of assessable oranges and grapefruit for the 2016-17 season is estimated at 8 million 7/10-bushel cartons or equivalent. Thus, the \$0.09 rate should provide \$720,000 in assessment income. Income derived from handler assessments, along with interest income and funds from the Committee's authorized reserve, should be adequate to meet this year's expenses.

The major expenditures recommended by the Committee for the 2016-17 year include \$600,248 for the Mexican fruit fly control program, \$77,200 for management, and \$50,000 for compliance. Budgeted expenses for these items in 2015-16 were \$600,248, \$77,200, and \$0, respectively.

At the current assessment rate, assessment income would only equal around \$640,000, an amount insufficient to

cover the Committee's anticipated expenditures, which includes a \$50,000 increase in funding for compliance. The Committee considered the estimated expenses and recommended increasing the assessment rate.

Prior to arriving at this budget and assessment rate, the Committee considered information from various sources, such as the Committee's Budget and Personnel Committee, and Committee management. Alternative expenditure levels were discussed by these groups, based upon the relative value of various activities to the Texas citrus industry. Based on estimated shipments, the recommended assessment rate of \$0.09 should provide \$720,000 in assessment income. The Committee determined that the assessment revenue, along with funds from interest income and funds from reserves, would be adequate to cover budgeted expenses for the 2016-17 fiscal period.

A review of historical information and preliminary information pertaining to the upcoming crop year indicates that the average grower price for the 2016-17 season could be around \$13.50 per 7/10-bushel carton or equivalent of oranges and grapefruit. Therefore, the estimated assessment revenue for the 2016-17 crop year as a

percentage of total grower revenue could be around 0.6 percent.

This action increases the assessment obligation imposed on handlers. While assessments impose some additional costs on handlers, the costs are minimal and uniform on all handlers. Some of the additional costs may be passed on to producers. However, these costs are offset by the benefits derived by the operation of the marketing order.

The Committee's meeting was widely publicized throughout the Texas citrus industry and all interested persons were invited to attend the meeting and participate in Committee deliberations on all issues. Like all Committee meetings, the June 2, 2016, meeting was a public meeting and all entities, both large and small, were able to express views on this issue.

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the order's information collection requirements have been previously approved by the Office of Management and Budget (OMB) and assigned OMB No. 0581-0189 Generic Fruit Crops. No changes in those requirements as a result of this action are necessary. Should any changes

become necessary, they would be submitted to OMB for approval.

This rule imposes no additional reporting or recordkeeping requirements on either small or large Texas orange and grapefruit handlers. As with all Federal marketing order programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public sector agencies. As noted in the initial regulatory flexibility analysis, USDA has not identified any relevant Federal rules that duplicate, overlap, or conflict with this final rule.

AMS is committed to complying with the E-Government Act, to promote the use of the internet and other information technologies to provide increased opportunities for citizen access to Government information and services, and for other purposes.

A proposed rule concerning this action was published in the **Federal Register** on August 17, 2016 (81 FR 54748). Copies of the proposed rule were also mailed or sent via facsimile to all Texas orange and grapefruit handlers. Finally, the proposal was made available through the internet by USDA and the Office of the Federal Register. A

30-day comment period ending September 16, 2016, was provided for interested persons to respond to the proposal. No comments were received.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: <http://www.ams.usda.gov/rules-regulations/moa/small-businesses>. Any questions about the compliance guide should be sent to Richard Lower at the previously-mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

After consideration of all relevant material presented, including the information and recommendation submitted by the Committee and other available information, it is hereby found that this rule, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it also found and determined that good cause exists for not postponing the effective date of this rule until 30 days after publication in the **Federal Register** because: (1) The 2016-17 fiscal period began on August 1, 2016, and the marketing order requires that the rate of assessment for each fiscal period apply to

all assessable Texas oranges and grapefruit handled during such fiscal period; (2) the Committee needs to have sufficient funds to pay its expenses which are incurred on a continuous basis; and (3) handlers are aware of this action which was unanimously recommended by the Committee at a public meeting. Also, a 30-day comment period was provided for in the proposed rule.

List of Subjects in 7 CFR Part 906

Grapefruit, Marketing agreements, Oranges, Reporting and recordkeeping requirements.

For the reasons set forth in the preamble, 7 CFR part 906 is amended as follows:

PART 906 - ORANGES AND GRAPEFRUIT GROWN IN LOWER RIO GRANDE VALLEY IN TEXAS

1. The authority citation for 7 CFR part 906 continues to read as follows:

Authority: 7 U.S.C. 601-674.

2. Section 906.235 is revised to read as follows:

§ 906.235 Assessment rate.

On and after August 1, 2016, an assessment rate of \$0.09 per 7/10-bushel carton or equivalent is established for oranges and grapefruit grown in the Lower Rio Grande Valley in Texas.
